EDUCATION

Northeastern University, Boston, MA
Khoury College of Computer Sciences
Candidate for Master of Science in Computer Science

Sept. 2025 - Present
Expected Graduation: Apr 2027
GPA: 3.34/4.0

Vellore Institute of Technology, Vellore, India
Bachelor of Technology in Information Technology

Sept 2020 - Jun 2024
GPA: 7.92/10

TECHNICAL KNOWLEDGE

Languages Python, C, C++, SQL
Frameworks and Tools MySQL, Flask

EXPERIENCE

Python Developer Intern
LG Electronics India

Jan 2024 - Jul 2024
Pune, India

- Built a Python web app (Flask, BeautifulSoup, Pandas) to scrape consumer reviews across, cutting manual review collection from 3 hrs/product to under 5 min, projecting 150+ hours/month saved across a 50-member research team.
- Developed an automated competitor benchmarking module aggregating rival listings, model numbers, and ratings, replacing a 4–6 hour manual audit process and projected to accelerate go-to-market decisions by 2–3 weeks per product cycle.
- Designed a Flask-based interface for non-technical stakeholders to generate on-demand reports via URL input, projected to eliminate ad-hoc analyst requests and reduce research bottlenecks for 30–40% of the product strategy team.
- Delivered a framework to surface manufacturing and supply chain gaps through sentiment analysis while mapping competitor positioning, projected to improve product iteration speed by 5–8% and save an estimated INR 150k-200k annually in outsourced research costs at division scale.

PROJECTS

Stock Market Application

Dec 2025

- Developed a paper trading application in Python and MySQL to simulate a stock market trading application where users can practice trades without the involvement of money or actual securities.

Dataset Augmentation Using GANs

Oct 2025

- Developed an implementation of a Generative Adversarial Network (GAN) which uses a generator and discriminator to create synthetic data for a sample minority class.

In Role of Artificial Intelligence, Telehealth, and Telemedicine in Medical Virology (pp. 179-197). Singapore: Springer Nature Singapore.

LEADERSHIP

Chairperson
VIT Model United Nations Society

Jan 2023 - Dec 2023
Vellore, India

- Conducted sessions for 50+ club members with varying expertise levels, moderating debates, delivering real-time constructive feedback, and managing group dynamics under time pressure.
- Guided members through detailed stages of event planning and execution for a cumulative total of 400+ participants.

Events Head
DBQC - The VIT Quiz Club

Jan 2022 - Dec 2022
Vellore, India

- Organized 6 inter-college competitions for 100+ participants, designing analytical question sets and coordinating teams of 10+ volunteers.
- Conducted 9 internal quizzes for members while providing after-quiz feedback for sharpening logical and lateral thinking skills.
